

ABSTRACT

TRUSTED COMPUTING ENVIRONMENT

5

A trusted computing environment 100, wherein each computing device 112 to 118 holds a policy specifying the degree to which it can trust the other devices in the environment 100. The policies are updated by an assessor 110 which receives reports from trusted
 10 components 120 in the computing devices 112 to 118 which identify the trustworthiness of the computing devices 112 to 118.
